

Hawaiian Easy

This template must be printed at 200% scale !

February

Fabrics

Fabric 1: Light Blue

Fabric 2: Purple

Cutting instructions

There is only one template which will take 4 pages to print. You will need to glue them together to get the correct size of the block. Once this is done, trace the appliqué design.

Please note: The template must be printed at a scale of 200% to give the correct 12½" size.

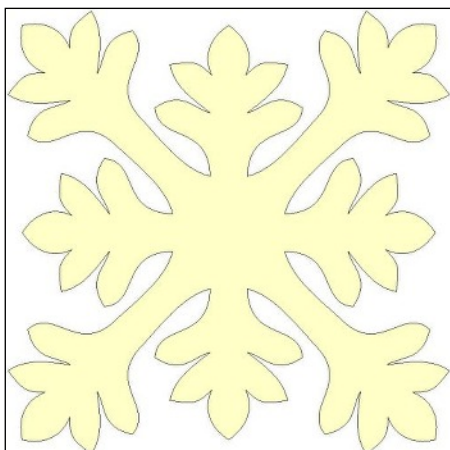

Fabric 1: Cut out a 13 inch square.

Fabric 2: Take your tracing of the appliqué design and use as a template. Draw round it on bondaweb and then cut out the shape. (At this point you can use any appliqué method that suits you instead.)

Iron this onto your fabric 2 and cut out carefully.

Assembly Instructions

1: Take the 13 inch square of fabric 1 and position your appliqué shape on top checking that it is central on the square. See diagram.

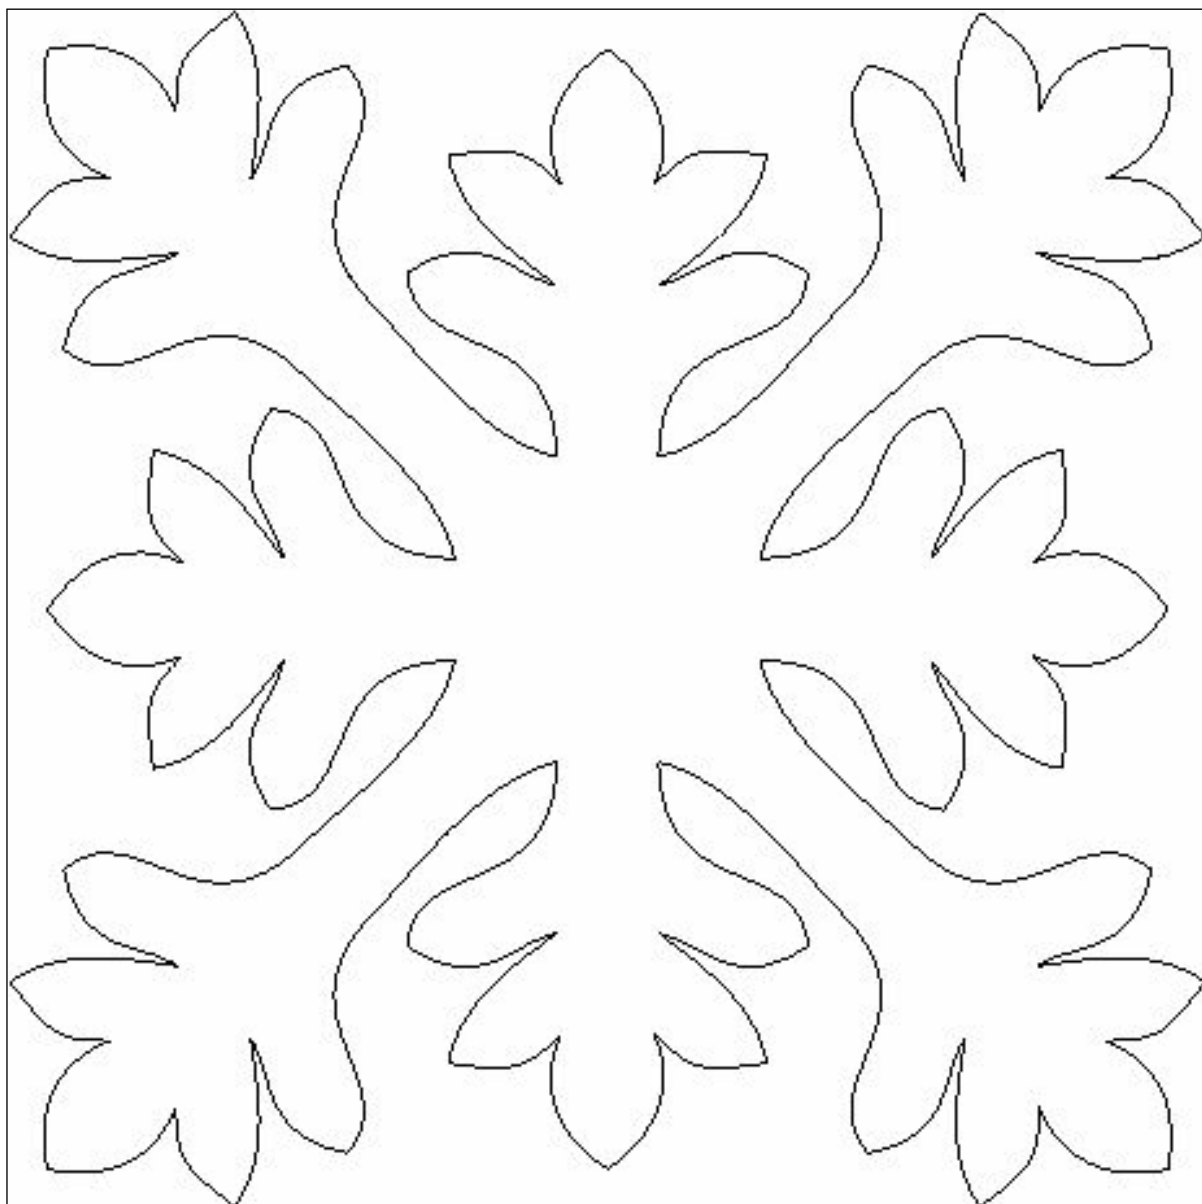

2. Remove paper backing and iron in place.
3. We must now stitch the shape to the background. Again it is your choice as to how you achieve this.
4. Trim your square to 12 ½ inches.

This template should be printed at 200% scale,
with paper size set to A4

6 1/4"
