Assembly Instructions

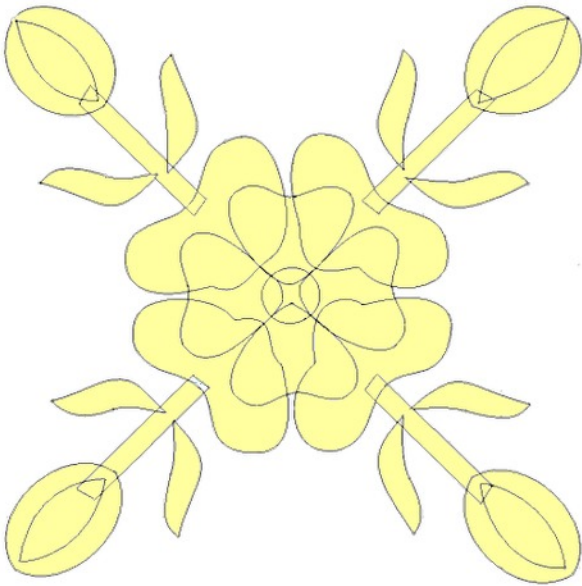

As there are various ways to appliqué on the pieces I have left the method to your own preference.

I would suggest marking the diagonal lines in lightly on the 13 inch square.

This will give you the centre and guide lines for the pieces.

Using the diagrams as a guide the pieces will be appliquéd on in the following order.

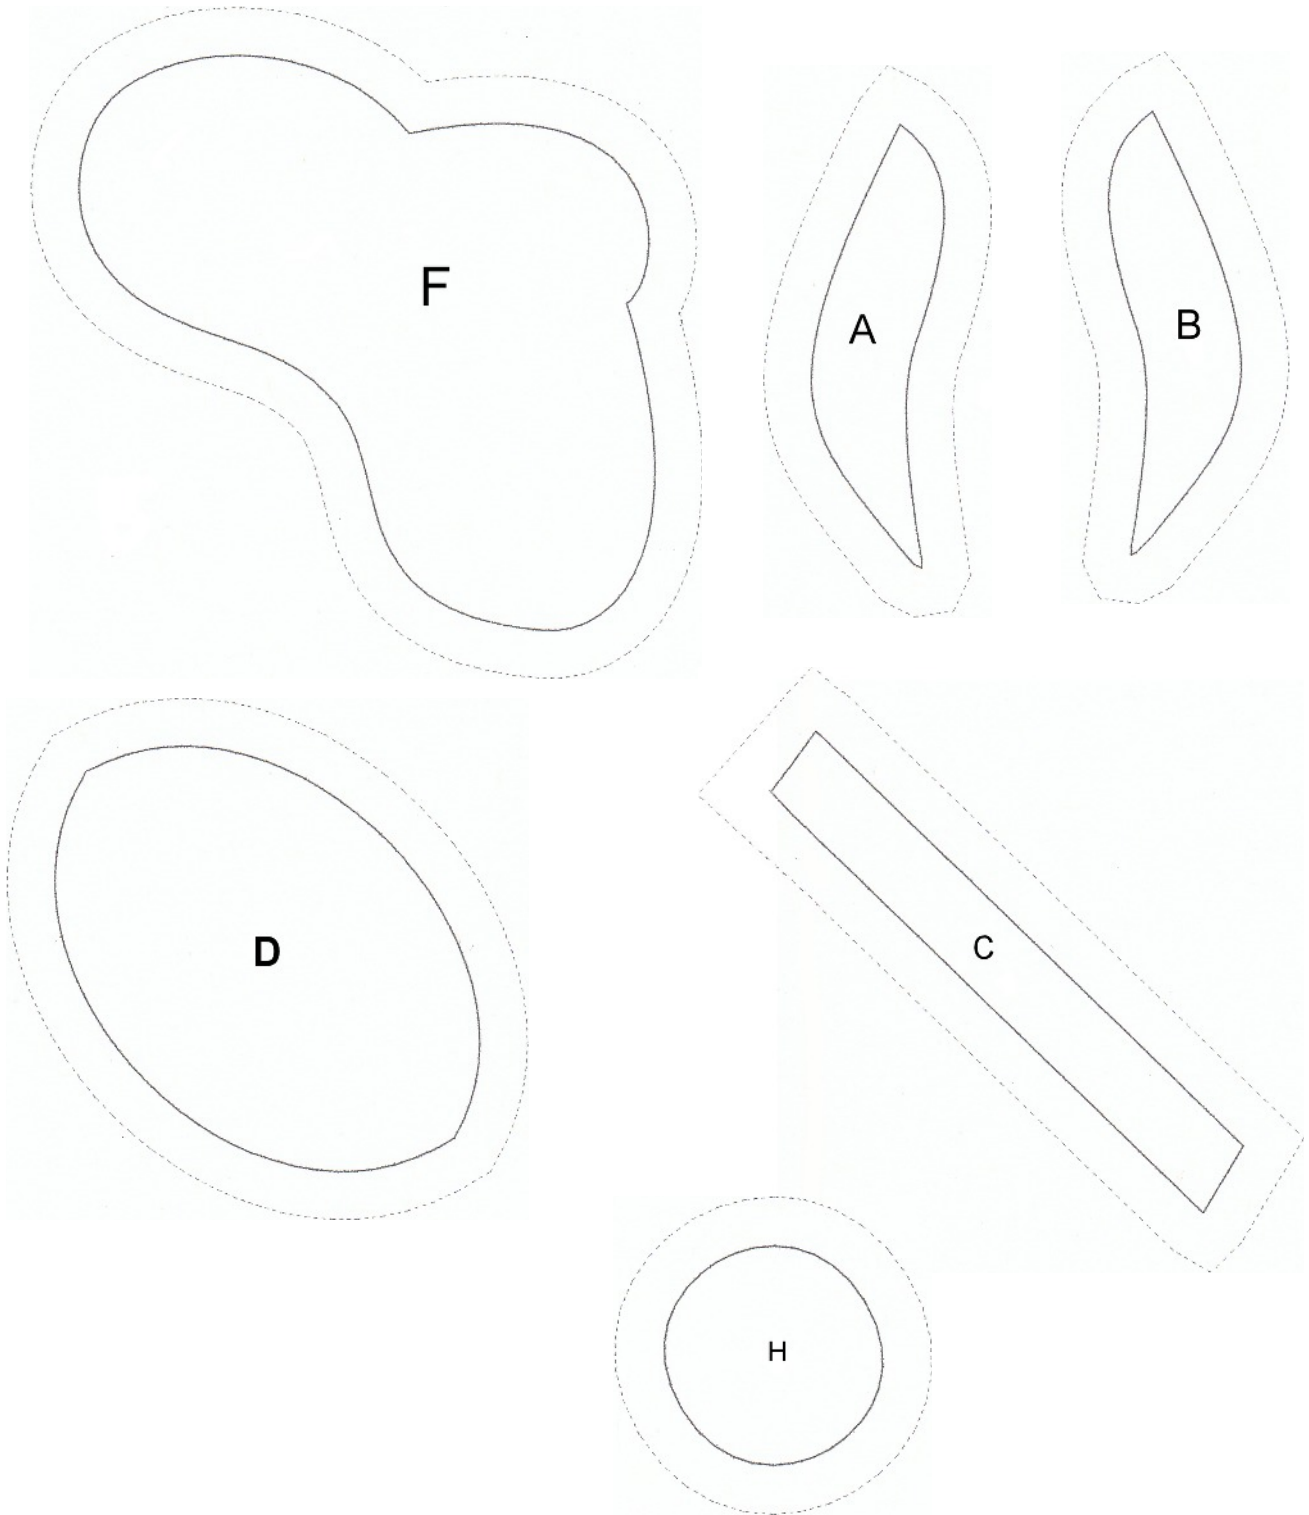

The 13 inch square is the background for the tulips.

1. The 4 template A.
2. The 4 template B.
3. The 4 template C.
4. The 4 template D.
5. The 4 template E.
6. The 4 template F.
7. The 4 template G.
8. Template H.

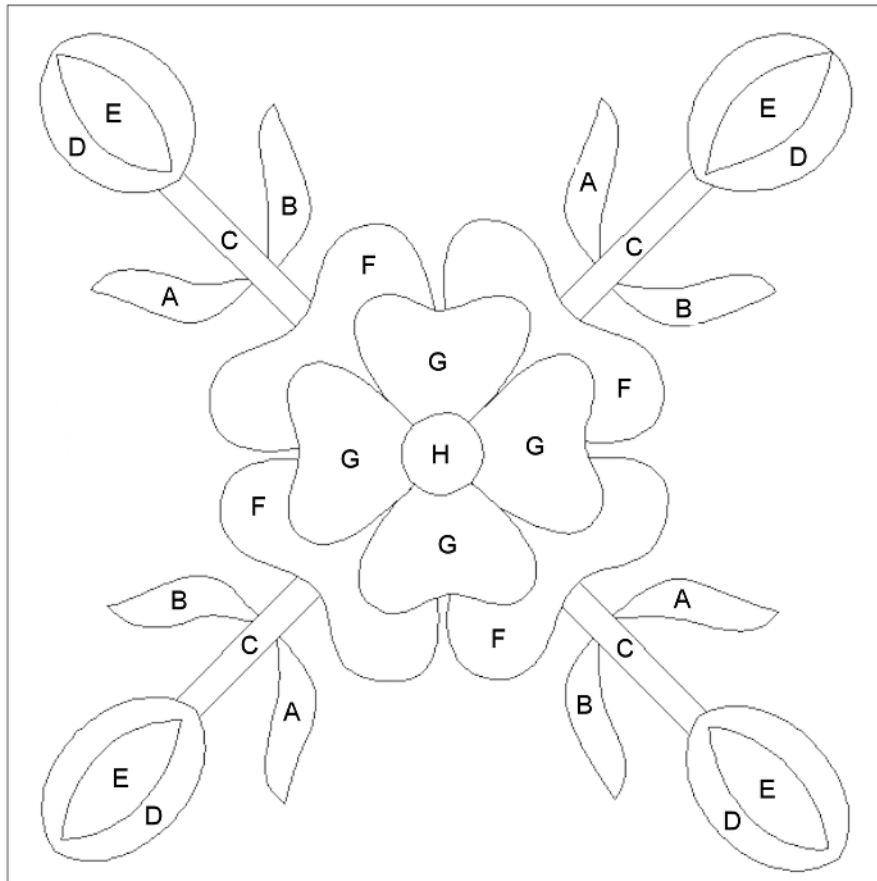

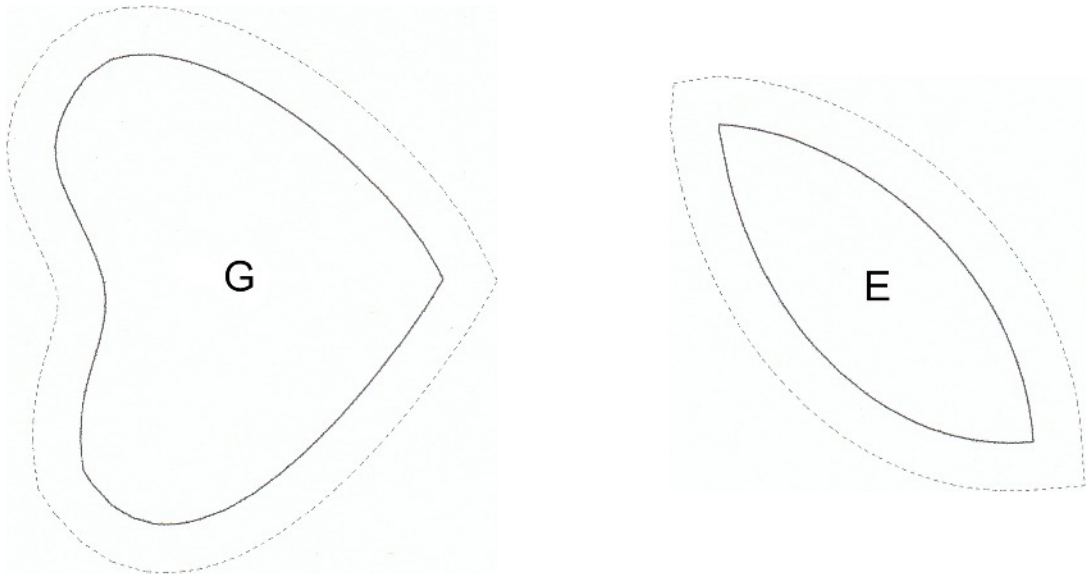

Once these have been sewn on trim
the square to $12 \frac{1}{2}$ inches.
